GURNEY'S

1962 FALL SALES CATALOG

Copyrighted 1962 by
GURNEY SEED & NURSERY CO.
YANKTON, SOUTH DAKOTA

Dear Gurney Gardeners:
Gain a Headstart . . .

If you folks want to 'steal a march' on your neighbors, fall planting is the way to do it.

Generally you have more time in the fall, and the fall-set plants get an extra 6 months to get established, roots started and they start growing way ahead of spring-set plants.

Of course, fall is the only time to set tulips, hyacinths, and the like.

We've gathered together the finest of the new plants and the best of the old favorites for you. I hope you won't put off getting your order in now. We'll do the rest and wish you the very finest in gardens.

Res. Gurney

P.S. Of course, there's always a free gift with every order from Gurneys. Let us send you one.

Another Satisfied Gurney Customer

Dear Sir:
First of all, I'd like to tell you how well pleased I was with the tulip bulbs, iris, etc., that I purchased last year.
Enclosed is my order for this year's planting.

Yours very truly,
Mrs. Gordon Roth

Your Check Is Good at Gurneys

Don't fret about how to send money in your order. Checks are generally the safest way and we accept them all. Gurney customers are honest people.

Of course, money orders are equally safe to mail, but they cost a little. We don't recommend generally the sending of cash. Lots of people do, but it's generally better to use checks or money orders.

In any case, sitting down and shopping in comfort and leisure in your own home is the easiest way. When your order comes, we'll take care of it promptly and properly. That's what we're here for.

Why Fall Planting Pays And How To Do It

Fall planting is easy. And it really "pays off." Plants set in the fall get a real headstart. Roots get settled and develop, they take advantage of melting snow and early spring rains and get way ahead of spring planted plants.

HOW TO PLANT IN FALL—Mostly, plant just as you would in the spring. With roses it's well to mound about 8 or 10 in. of moist soil up over each rose to tip of our pre-pruned stock. Leave dirt on until growth starts in spring and then remove mound gently and prune back to about 6".

With PERENNIALS, SHRUBS, ETC., it's well to mulch with straw or leaves AFTER the ground freezes. This helps prevent "heaving" from frost.

In EXTREME NORTH, some folks like to "heel-in" fruit trees by covering whole tree (laid on side in trench) with 8" moist dirt. This keeps stock in perfect condition for earliest spring planting.

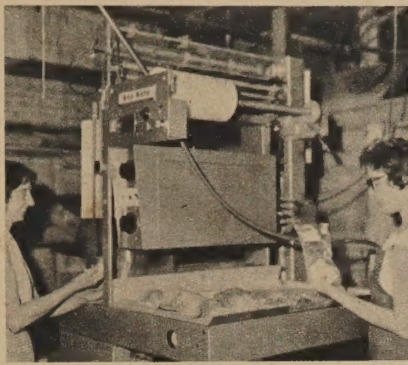

WHEN WE SHIP—in fall, bulbs, perennials and like are generally shipped after about Sept. 1, as soon as order received. Trees, shrubs and roses generally follow later in Oct. or Nov. after trees are properly "ripened up" for planting. It does not hurt to plant with a little frost in ground. Of course, a Free and Complete Planting Direction Booklet is included in EVERY GURNEY SHIPMENT.

Know The Correct Depth To Plant

The chart at the left will help you get better results with your bulbs, tubers and perennials. Most people do not realize how important it is to plant at the correct depth. If your soil is real sandy, plant slightly deeper, if heavy soil, not so deep.

Here's Another Reason Gurney Plants Are Better

Better plants don't just happen. It takes some "know how" and that's what Gurney's have in the nursery and seed business.

It takes experts in horticulture to grow you the finest varieties and healthy plants. It also takes specialists in packaging, too. Like this automatic machine above which Gurney's just added. It makes and seals a special polyethylene package around many bulbs, perennials and strawberries. This special package allows the plants to "breathe" but not dry out.

Just another reason Gurney seeds, plants and bulbs do better for you.

Yes, Gurney's Have A Free Gift For You

It's always fun to get a surprise. That's why it's always fun to open your Gurney package for there is always a surprise FREE GIFT enclosed for you.

This is just our way of saying "Thank-You" for your business and to express our hope that your planting will be a big success. It always has and always will take a lot of old-fashioned courtesy to maintain a friendly business. We believe in good measure and a little extra.

We think you'll like the Gurney way of doing business as do thousands of others.

Success comes from hanging on—after everyone else has let go.

Blue Ribbon Gurney Produce

This picture shows David, the youngest son of Mr. and Mrs. John Gott of Elwell, Michigan. She writes that they won blue ribbons on these and they were the largest they had ever raised. The Gott's have been Gurney customers for many years.

"George Gurney's Corner"

This is my corner for 'Just Visiting,' so skip it if you like, or draw up a chair and we'll chat, if you like. (I know I'm doing all the talking, but you can talk back in your letters.)

First, I want to thank Gurney customers for being so nice. We had the biggest spring rush this year I've ever seen. Seems like everyone decided at once Gurney's hardy plants were better. Anyway, we got behind for a few days and we worked day and night to catch up and we did. Even when a shipment was a little late, the letters we got were very warm and kind like, "We wondered where our order was, but, when it got here we were delighted . . . wonderful fresh plants." Can't beat customers like that.

That statement about "fresh plants" is something you should note. There are an awfully lot of dried-out plants sitting on counters around the country that just can't grow. Buying direct from Gurney's gives you the advantages of a wide selection (you find just what you want) ease of buying, and a guarantee of perfectly fresh, live stock. That's the only kind in the world you can possibly want!

Fall isn't near as busy for us or for you. That's why it's an ideal time for planting. Besides, the plants you fall-set, get well-adjusted, roots develop and they start off in the spring way ahead of spring set plants. BY ALL MEANS, DO SOME FALL PLANTING THIS YEAR.

And we've got a lot of new treats for you this year. Those Giant Hybrid tulips on the cover are simply the most magnificent things you will ever see. And you'll like the new mums, the fringed tulips—I could go on and on. You just look for yourself. Rather think you'll be very tempted.

Send your order now. We'll ship at proper planting time when plants are dormant and time is right. And, of course, every plant you get will be fresh, hardy, top-quality, inspected—absolutely tops in every way. We're proud of Gurney stock. Know it will do well for you. Hope to see your order soon.

George Gurney

P.S. As usual, with each order shipped from Gurney's there is a surprise free gift for you. You'll like it. It's our way of saying "THANK YOU."

All Gurney Nursery Stock is FULLY GUARANTEED

A great deal of nursery stock, sitting on many store counters is dried out and oftentimes dead. Beside losing a whole year when you plant that kind of stock, it often isn't even guaranteed—you just are 'out the money.'

That's not true with Gurney stock. Beside being live, fresh, state-inspected and approved, it is satisfaction guaranteed or your money back and it has been that way for years. That's why Gurney customers keep coming back. They KNOW they will get good stock, but if anything, by chance, should be wrong, it's always made right.

Our guarantee is a fair guarantee and it has pleased our customers for years. Here it is:

Gurney's Nursery Guarantee

We guarantee all our nursery stock to be state inspected, free from disease, true to name, and first class in every way.

Examine the nursery stock carefully when you receive it. If you are not pleased with it in every way, return it promptly at our expense and we will replace it at once, or refund your money in full, whichever you prefer.

After you have planted it, if it fails to grow, owing to weather conditions or other factors over which we have no control, we will adjust for those losses once by issuing a credit for one half (50%) of the original purchase price providing your loss is reported to us not later than August 1, 1963.

Don't Miss These New Items:

Gurney's always like to find the extra-new or extra-nice garden plants for their customers and this fall is no exception. Beside the finer, more-standard favorites, we want you to be sure not to miss these extra choice varieties:

New Siberian Iris—Page 2. Lovely in rock gardens. Early and delicate.

New Japanese Iris—Page 2. All iris are lovely, but these give your garden a whole new look. You'll love them.

New "5-in-one" Tulip—Page 6. A gorgeous new color in a famous novelty that actually bears a whole bouquet on one stem.

New Green Lily (Emerald Trumpet)—Page 1. You'll love this different color in lilies and huge, too.

New Fringed Tulips—Page 6. You have to see them to believe.

New Japanese Peonies—Page 1. A welcome variety for your garden you'll love. Very early, too.

Part of the fun of gardening is trying something new each year and making new friends. Hope you all add one of above to your order this year. We think you'll be pleased.

NEW GREEN KNIGHT

Here's Something New and Different
A Green Tulip

B6064—This new tulip is so unusual we felt it was a "must" for our fall catalog. We can't recall when we've seen anything more "eye-catching." Just imagine a tulip that is emerald green fading off to light green on the outside. The inside of the petal is a beautiful chartreuse.

If you want to be the talk of the neighborhood—don't fail to plant some of these exquisite new beauties.

Don't have too many on hand so it's strictly "first come—first served."

PEACOCK TULIPS

The Beautiful Hybrids
Colored Up Like Peacocks

B6265—No bird is more beautifully colored than a Peacock. No flower, including tulips, has more beautiful coloring than the Peacock-type, Kaufmanniana tulips. This is a gorgeous new Hybrid class of tulips that deserves the most prominent location in your yard. Our strain of Kaufmanniana Hybrid tulips is far superior to those usually sold as the common Hybrid Rainbow Mixture. Even the foliage is striped and mottled. For something different in tulips, be sure to try the brightly colored Peacocks.

B7030X—WE SEND 3 EACH PICTURED ABOVE

Big Double Flowers Like Peonies

Now you can raise tulips that have huge blossoms—fully double. The blossoms are produced on long, tall stems and what's more—they are fragrant, too. Our new strain of the giant, double-flowering tulips is far superior to the old, squat, early type that is still sold by many. To make a real gay showing of color, try using them in groups of six or twelve bulbs to a planting—either all one color or mixed. If you prefer to buy individual varieties, choose from the following:

The Tall Poppy

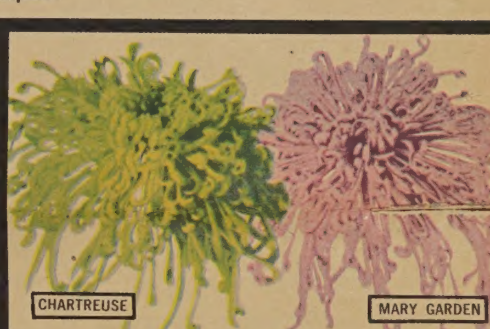

B1731—Huge blossoms of a beautiful, dark crimson color with a black blotch in the center of the flower. The blossoms are tremendous in size—often as much as 6" across. Each is a perfect specimen of an Oriental Poppy. We can recommend Royal Scarlet to anyone who wants a truly outstanding poppy. Try it and see for yourself.

B1700—Here is the King of all the white poppies. As you'd imagine it, white flowers with small purplish black spots at the base and the size is something you'll talk about—often 6 in. across. If you want to see a beautiful sight, plant this variety with reds for contrast. You'll like this white one—it's different.

B1712—Grows to medium height and the blossoms are a beautiful golden-orange color. You'll find the beautiful color becomes more pronounced as the plant grows older. A very unique poppy because of its color and beautiful blossom. Grows over 2 feet tall and deserves a prominent place in your garden.

B1713—This is one of the very finest of all the pink oriental poppies, and is the tallest growing variety we have to offer. Helen Elizabeth has a good blooming season and has proven to be a very rugged grower. You'll find no dark spots on the large blossoms which are borne on stems that stand up to 38" in height. PRUNING PAINT AEROSOL BOMB

Use After Pruning

5065F—Thousands of valuable trees are lost annually because folks just won't protect the wound after a limb has been removed by pruning. Moisture gets in—rot starts—and so do your troubles. You can play safe and avoid all this with Pruning Paint. Just hold the aerosol bomb 10 inches from the wound and push the button. Gives real protection. 5 oz. bomb 1.00; 2 for 1.85 postpaid.

GREEN FINGERS Fertilizer Sticks

The Easy Way to Fertilize

5035F—Sticks are impregnated with fertilizer. Simply push a stick into the soil. It absolutely will not cause any burning. No odor or mixing necessary and it is ideal for use either indoors or outdoors. Try it for real results. Package of 35 sticks, 65c; 2 pkgs. 1.10, postpaid.

"King Size" SWEEP RAKE

Does More—Easier

5038F—Made of lightweight aluminum. Weighs no more than a small rake but is 44 inches wide and will cover four times the ground. Gold anodized handle and branches. Rubber grip. Steel tines. Only 10.25, postpaid.

FALL PLANT

Fruits and Be Ahead!

Gain 6 Months!

You get a big head start when you fall plant. Be sure to leave a mound of dirt around the base of the plants or trees as this helps prevent damage from possible soil heaving. If you live where it gets extremely cold we advise you "heel in" your fruits. Stock stored by burying tops and roots to a depth of 8 inches in moist dirt, will keep in 100% perfect condition for planting at the earliest date next spring.

Fruit trees will be shipped when they have "ripened up" in mid-Oct. and Nov. which is the proper time to fall plant.

It does not hurt to plant with a little frost in the ground.

Most Successful RABBIT REPELLENT

Gives Your Tree Complete Protection

This new Ringwood Repellent is the newest, most effective of all.

Easily sprayed or brushed on dormant trees, shrubs, etc. to give lasting protection against rabbit damage. One application lasts all season and the pint size can will take care of up to 150 young trees.

5015F—Liquid Concentrate: pint 2.50; quart 4.50, postpaid.

4052F—5 oz. Aerosol can for easy dispensing 1.25; 12 oz. Aerosol can 2.45, postpaid.

Enjoy the Birds! STURDY—OUTDOOR BIRD FEEDER

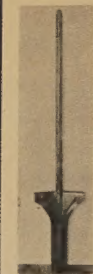

Have All-Winter Entertainment

5056F—An attractive feeder your bird friends will like. Comes knocked down—all materials, nails and instructions. Takes only a few minutes to assemble. Can be put on fence posts or ledge. 1.50 each; 2 for 2.50, postpaid.

SUNFLOWER SEED for BIRDS

240F—Favorite of all. Parrots and Cardinals go wild over it. Other birds like it too. 4 lbs. 1.59; 10 lbs. 3.20, postpaid.

BEST EVER BULB PLANTING TOOL

Makes Planting Easy

5064F—No more digging with the trowel. Just set the tool where you wish to plant, step on it and you have made a 2 inch hole. Made of steel. Will cut through sod, lasts a lifetime. This is the easy way to plant and is a real back-saver. 2.35, postpaid.

NOW! Store Vegetables Without A Cellar—Use DORMATONE

It Prevents Sprouting

4053F—Now you can store your home-grown potatoes, carrots, turnips, rutabagas, for months without sprouting or shrinking. Vegetable cellar or cold storage not necessary. Dormatone actually improves cooking and eating quality, also appearance. Absolutely harmless. Just dust tubers with sifter can. 12 oz. sifter can (8 bu. size) 1.29, ppd.

Gurney's Famous HOUSE PLANT BOMB

For All House Plants

4091F—Specially made for African Violets but can be used on all kinds of house plants. Controls mealy bug, mites, aphids, exposed thrip, white fly and others. Aerosol can 1.10; 2 for 1.98, postpaid.

Gurney's LEAF POLISH

Shines Up Plants

5050F—No brushing or polishing with this. You spray it on. Gives a glossy attractive, dust-resistant surface. Use only on hard-leaf plants such as philodendrons, ivy, etc. 5 oz. can 95c; 2 cans for 1.79, postpaid.

FALL PLANT TREES for early start

Fall Planting Gives Real Gain

Fall planted trees get a real head start over spring planted ones. They gain from snow, early spring rains and 6 months to settle roots. By all means, set the trees you need this fall.

Gurney's have been headquarters for tree planters for over 90 years. Fall plant all shade trees in the regular manner but mound up around the base of the tree about 8 inches with moist dirt. We preprune the trees before shipment so they are all ready to plant on arrival.

When We Ship: All shade trees will be sent from mid-October to November. This is when they are fully ripened and is the proper time for fall planting in all areas. We raise our trees right here at Yankton to assure you of hardy northern-grown stock.

4 HARDY EVERGREENS \$12.98 POSTPAID

You get 2 WELCHI (UPRIGHT) 2 to 3 FT.—2 SAVINS (LOW GROWERS) 12 to 15 IN.

HOW WE SHIP EVERGREENS

B&B Means Balled & Burlapped

All evergreens listed as "B&B" are well shaped specimen trees dug with their roots still in a solid ball of rich earth and then wrapped in burlap just as they have been growing in the nursery. This is the best way to buy evergreens, but they must be shipped express or by truck, not prepaid.

A Complete Doorway Planting For You

This ever popular offer provides a beautiful setting for your front entrance and gives year round evergreen beauty. You can use them anywhere evergreens are needed. You get 2 uprights and 2 low growers in this bargain. All R.W. trees.

Order No. IN53XF—you get:

- 2 WELCHI UPRIGHT JUNIPER
Beautiful 2-3 ft. sheared trees
- 2 SAVINS JUNIPER
Both 12-15 in. low growers

NOW YOU CAN BEAUTIFY YOUR OWN HOME ECONOMICALLY!
R. W. MEANS ROOT-WRAPPED

All evergreens listed "R.W." are freshly dug specimen trees. The roots are "puddled" in mud as soon as dug and each tree is individually wrapped in wet moss. These trees are all sent to you postpaid. The easier method of digging R.W. trees means a saving to you as you will see by our special R.W. prices. Water all evergreens thoroughly after planting.

GORGEOUS FLOWERING SHRUBS

Add Value and Beauty

At a very small cost, you can plant Gurney's shrubs that will add lots of beauty to and actually increase the value of your home. Nothing is quite as unsightly as a barren foundation. Gurney's shrubs will take care of that problem quickly and inexpensively.

HOW TO PLANT

A good "rule of thumb" is to plant low shrubs 2½ ft. apart; medium growers 3 to 3½ ft. apart, and tall ones 4 ft. apart. Immediately following planting, be sure to prune all shrubs back to one-third their original height. This equalizes root loss and gives them good start. Put an 8 inch mound of moist dirt around the base of tall planted shrubs to prevent ground heaving. Uncover carefully the following spring.

HYDRANGEA P. G.

Massive 10" Flowers

A3848—Hardy shrub producing panicles of white flowers, as large as 10 inches across, changing to shades of pink in the fall. Excellent for foundation or shade plantings. Grows 3 to 5 ft. tall. 18 to 24 in. 1.39 each; 3 for 3.89; 5 for 5.98, postpaid.

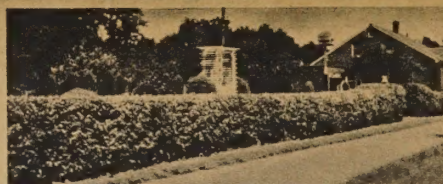

BRIDAL WREATH

Everybody's Favorite

A3915—Spirea Van Houttei. George Gurney says: "This is the best hardiest shrub that grows." Its pure white flowers are borne on long graceful branches. Height 4 to 6 feet.

GURNEY'S HARDY HEDGE PLANTS

A Fence for Less Than 4½¢ A Foot For Privacy—Beauty and Economy

Hedges are the cheapest kind of fence you can have—more beautiful and economical too.

Fall plant same as in the spring, but cut back to ½ original height and mound up with moist soil around the base of each plant to a height of 6 or 8 inches. Uncover carefully next spring.

No paint or repairs needed in this kind of fence and you'll have real privacy and beauty, too.

Hardy CHINESE ELM

These evergreens will dress up your home 365 days out of the year not just in the summer. All are hardy and priced to save you money.

IN18—MANEY JUNIPER. A beautiful, bushy, semi-erect type with a distinctive blue color. Will fill in nicely between upright and low-growing evergreens. Grows to about 3 feet and is very compact. Perfectly hardy and easy to grow. 15 to 18 in. R.W. 3.98 each; 2 for 7.49, ppd.

IN44—PFITZER JUNIPER. Has arching, spreading branches, feathery gray-green foliage. Hardy everywhere and does well in sun or partial shade. 6 to 8 ft. across at maturity. Can be kept to 4 ft. across by shearing. Goes well with the uprights for entrance or foundation planting. 15 to 18 in. R.W. 4.49 each; 2 for 8.49, postpaid.

IN12—SAVINS JUNIPER. This beautiful, fan-shaped dark green evergreen shrub is exceptionally hardy. It is very attractive and extra drought-resistant. One of the best for mass plantings in beds and is hard to beat along the foundation. More erect than Pfitzer. 15 to 18 in. R.W. 4.49 each; 2 for 8.49, postpaid.
